

MINI PROJECT

ENGLISH IN THE MEDIA

Divide the class into groups of 4 or 5 students. Assign each team a topic such as Sports, Music,

Publicity or Computing and ask them to look for information about that topic in magazines, newspapers, books or other sources.

Once they have found it, they will have to say if they found English words or phrases in their materials.

Each team will choose the way to show the others what they have found or discovered, e.g.: making posters, pictures, comics...

Finally, it would be interesting to make students think about the influence of English Language in their mother tongue and daily lives.
